

frame\_t

```
graph BT; shMem[shMem] -.-> frame_t[frame_t];
```

The diagram illustrates a pointer relationship between two memory structures. At the bottom, a gray rectangular box labeled 'shMem' is connected by a dashed purple arrow pointing upwards to a white rectangular box labeled 'frame\_t' at the top. The text 'shMemFrame' is positioned to the right of the arrow, indicating the type of the pointer.
